

Pine Class Newsletter

Autumn 2

Dear Parents and Carers,

Pine Class joined Oak at St Edmund's on Monday 10th November for a day of animal themed learning. We had a visit from Wild Encounters who brought a range of carnivores, herbivores and omnivores for us to meet which links to our Science topic.

In the afternoon we worked together to investigate three different samples of poo and used our scientific enquiry skills to look for clues such as the shape, size and contents to work out which animal did the poo. (Don't worry, it was not real poo!)

Back at school and in Literacy lessons we have been busy learning the story of Beegu, a small alien who comes to Earth and finds it not very welcoming, by roleplaying, sequencing the story and adding actions. We will be working on our own version of the story starting next week.

Mrs Ball

Pine Class Teacher

Dates to Remember

Nativity will be part of the festival of Christmas
As normal, we will provide costumes

Monday -
Outdoor Learning

Thursday - P.E
